

FALL OF SANTIAGO IS EXPECTED THIS WEEK.

(Scripps-McRae League Service.)

JURAGUA, June 27.—The American army is now within little over an hour's march from Santiago. Gen. Chaffee leads the brigade in front, and today occupies Savilla, where the Spanish commander, Gen. Linares, declared he would make a stand. Instead, however, he withdrew, and is now entrenched in the outer line of the defenses of the city of Santiago.

Gen. Shafter will personally direct the operations against the city, which will begin as soon as the heavy artillery is in position. He hopes to take Santiago before the end of this week.

WASHINGTON, June 27.—It is expected by the War Department officials that General Duffield's thirteen hundred soldiers will join General Safter's army near Santiago today, and take part in the attack on that city.

Commodore Watson's Splendid Fighting Ships.

(Scripps-McRae League Service.)

WASHINGTON, June 27.—The Navy Department has issued the following statement: "Commodore Howell is assigned to command the first squadron of the North Atlantic fleet; Commodore Schley is to command the second squadron, and Commodore Watson is to command the Eastern squadron."

The Eastern Squadron is to be composed of the flagship Newark, the battleships Iowa and Oregon; the cruisers Yosemite, Yankee and Dixie, and the colliers Scindia, Abarenda and Alexandria. The Eastern squadron will sail for the coast of Spain shortly.

ON TO SPAIN.

Commodore Watson Goes Today to Join Admiral Sampson.

Will Take a Squadron of Warships and Sail for the Spanish Coast.

Scripps-McRae Service.
Washington, June 27.—The following bulletin was posted today by the navy department: Commodore Watson sails today on the Newark to join Admiral Sampson, when he will take command of a squadron of armed battleships and auxiliary cruisers and will proceed at once to the Spanish coast.

IS NO GOOD.

That Explosive That the Spaniards Have Been Experimenting With.

Scripps-McRae Service.
London, June 27.—A Paris dispatch to the Daily News says that "Diaz" the new explosive and which the Spaniards hoped would be most destructive, is useless. Wind must be with it when being used or it will kill those attempting to use it.

HARD TIMES IN HAVANA.

Key West, June 27.—The brig Amapola, of Honduras, which was captured by the gunboat Vicksburg last Friday, tells a story of hard times in Havana.

The Amapola went to Havana before the blockade and left because of the impending famine. Her captain said food has been steadily growing scarce. The mass of people have nothing to eat but rice and potatoes. Of meat there was but little, and none for the poor.

There are 50,000 troops in the city, who are now on half rations. Hundreds are dying daily, the captain estimating that nine-tenths of the reconcentrated left alive when Gen. Lee left Cuba have since died. The growing scarcity of food induced the captain to try to escape and he took forty-five passengers. All seemed to think that being prisoners of the United States was better than starving in Havana.

TO LEAVE CHICKAMAUGA.

Washington, June 27.—The forward movement from Chickamauga is expected to occur this week.

Orders were sent Saturday to Maj. Gen. Brooke, the commanding officer there, and there is a reason to believe that a large body of troops are to proceed to Jacksonville and Fernandina as a result. It is said a total of 15,000 men, who are held in readiness for leaving Chickamauga, are affected by the orders.

They were originally for the Porto Rican army of invasion, but it is not unlikely that some of them will be hurried to Santiago, where most of the troops intended for Porto Rico will embark.

LATEST FROM MANILA.

No American Transport Ships Had Arrived There Up to Last Thursday.

Scripps-McRae Service.
London, June 27.—A Hong Kong dispatch says no American transports had arrived at Manila up to June 23, and that all was quiet there then.

NO COAL.

Italy Will Not Allow Camara's Fleet to Get Coal in the Red Sea.

The Egyptian Government Will Furnish Camara No Coal at the Suez Canal Ports.

Scripps-McRae Service.
Rome, June 27.—Agencia, the liberal leader asserts that Italy has privately informed Spain that Camara's fleet will not be allowed to coal at any Italian port in the Red Sea.

Port Said, June 27.—On application of the United States Consul the Egyptian government will not permit Camara's fleet to take coal at the Suez canal ports until further orders.

SAGASTA WAITING.

For Decisive News and Trying to Avert a Crisis.

Scripps-McRae Service.
Paris, June 27.—The Temps' Madrid correspondent says decisive news is momentarily expected from Manila and Santiago by the Spanish government. Sagasta is trying to avert an internal crisis until then, hoping the news will either be favorable to Spanish arms, or that it will impress on the populace the uselessness of a further continuance of the war.

THE SPANISH SIDE.

Gen. Linares' Official Report of the Engagement of Friday.

Madrid, June 27.—Gen. Linares, commanding the Spanish forces at Santiago, has cabled to the minister of war the following official report of Friday's fighting:

"A large force of Americans and Cubans attacked the Spanish column in the hills near Sevilla. The enemy was repulsed with heavy losses."

"The Spaniards had seven killed and 27 wounded."

"The debarkation of American troops is continuing at Juragua, which place was abandoned by the Spanish owing to the terrific cannonade of the heavy guns of the American warships covering the landing."

"The buildings were all destroyed. The Spaniards retired but took with them all their munitions."

QUIET OFF HAVANA.

Reported That General Gomez Is Short of Ammunition and Provisions.

Scripps-McRae Service.
Key West, June 27.—All is quiet today with the blockading fleet off Havana. The reported departure of the steamers Santo Domingo and Montevideo from Havana are denied by the captain of one of the blockading ships.

The crew of the sloop Isabella which sneaked into this port yesterday has been arrested by the health authorities. It came from Camaguey and the crew confirm the report that Gomez is short of food and ammunition.

HAY TALKS WITH SALISBURY.

London, June 27.—Ambassador Hay had a long conference with Lord Salisbury at the foreign office Saturday. It is understood the Philippines question in connection with the eastern situation was the subject of the conference, but no definite steps were taken.

HONORING THE HEROES.

President McKinley Has Recommended Rewards for Many Gallant American Seamen for Acts of Bravery and Heroism.

Scripps-McRae Service.
WASHINGTON, June 27.—The President today sent a special message to the senate nominating Cadet Powell to be advanced two numbers and to be assigned to the navy for extraordinary heroism displayed by him while in charge of the launch that accompanied the Merrimac in order to effect the rescue of Lieut. Hobson and his men in Santiago harbor.

The President also recommended that Lieut. Hobson be transferred to the line of the navy and be promoted to such position as the President may hereafter determine.

He also sent a message to congress commending the bravery of Lieut. Frank H. Newcomb, commanding cutter Hudson, for rescuing the disabled gunboat Winslow off Cardenas on May 11. The President recommended that the thanks of congress be extended to him and his officers and his men and that a gold medal of honor be given him and his officers, and a bronze medal to each of the crew.

He also recommends that Capt. Hogdon who commanded the Hugh McCulloch at the battle of Manila, be placed on the retired list with full duty and the pay of his grade, in recognition of his efficient and meritorious service at that battle.

MERRITT IS GOING.

The Third Manila Expedition is at Last Ready to Start.

Will Leave Late This Afternoon or Tomorrow, Without Fail.

Scripps-McRae Service.
San Francisco, June 27.—The last of the troops for the third expedition to the Philippines boarded the Valencia today. Gen. Merritt, commanding the army of the Philippines, with his baggage, is aboard the Newport. The start will be made late this evening or tomorrow.

THE SPANIARDS ARE DAZED.

Off Santiago, June 27.—So far the Spaniards have seemed to be dazed by the rapidity and daring of the American advance, abandoning position after position with but little resistance.

It is now believed the first stand in force will be encountered at the entrenchments east of the city, as the scouts report that these entrenchments are heavily manned with no considerable body of troops east of them.

The insurgents are now in close touch with the main body of the army.

There is scarcely any doubt now that the rough riders walked into an ambush Friday.

The severity of our losses in that day's fighting is attributed in part to the utter contempt of Roosevelt's men and the regulars for the Spaniards.

It was difficult to restrain the soldiers from attacking the enemy's superior position without waiting for reinforcements.

Troops are having difficulty in transporting the siege guns to the front, and the heat and exertion has prostrated many soldiers, but in the main the men are bearing up well.

WILL BE SENT BACK.

Richard Bruhl, the boy who had Mr. Gardner arrested last week for whipping him, is being taken care of by friends here, and will be sent back to the Orphan's Home in Louisville, it is likely, as soon as the proper persons can be communicated with.

Secretary Humpel, of the Children's Home society, has taken quite an interest in the case, and if the Orphan's Home is closed to the boy, will see that he is well cared for.

ALL A RUSE.

Not Believed That Admiral Camara is Going to the Philippines.

But He is Reported to Be at the Suez Canal Today.

Scripps-McRae Service.
Washington, June 27.—It can be stated on good authority that the president, the secretary of state, and the secretary of the navy do not believe Admiral Camara is bound for the Philippines.

Scripps-McRae Service.
New York, June 27.—The Journal has a cable dispatch from Rome which quotes the Spanish ambassador, Delmazo, as saying Camara's voyage is only a ruse, and after a short stay at Suez, he will return to Cadiz.

Scripps-McRae Service.
London, June 27.—It is reported here that Camara's fleet is passing through the Suez canal today.

CONTRACT AWARDED.

Fields & Simpson Will Repair the Market House.

The public improvement committee of the council this morning opened the bids for extending the market house to Broadway and Court streets, and Fields & Simpson were awarded the contract, at \$237.

Work will begin tomorrow morning. There were a number of competitors.

THE POPE'S AID.

The Queen Regent Wants it When the Proper Time Comes.

But She Believes That at Present Spain is Bound to Continue the War.

Scripps-McRae Service.
New York, June 27.—A Journal dispatch from Rome asserts that the papal nuncio at Madrid has telegraphed the Pope that the Queen Regent desires the mediation of His Holiness between the United States and Spain when the opportune moment arrives with the object of concluding peace.

At present the Queen Regent is convinced that Spain is bound to continue the war.

EXCURSION TO METROPOLIS.

The Knights of Pythias in conjunction with the ladies of the Home of the Friendless, will give an excursion to Metropolis tomorrow night. The Knights go there to participate in rank work of the Metropolis lodge. The Bettie Owen will carry the party, leaving here at 7:30 sharp, and will leave Metropolis at 10:30. A good orchestra will be on the boat and those who enjoy dancing will have ample opportunity. The ladies of the home will furnish refreshments. Round trip 25 cents.

HAS A FRONT ROOM.

And on the First Floor—Here Hobson Living in Clover.

Gets Better Grab Than the Spaniards, and Lives as an American Soldier Ought.

Scripps-McRae Service.

New York, June 27.—The World today prints a special telegram from Mr. Ramsden, the British minister at Santiago, who is negotiating with Spain for the exchange of Lieutenant Hobson and his companions. He says Hobson is in very comfortable quarters, occupying a spacious front room on the ground floor of the barracks. The telegram emphasizes the fact that Hobson and his men get better food than the Spanish soldiers, special dishes being prepared for them.

PANIC ON A BOAT.

The Passengers on the Lula Warren Thought They Were Gone.

Both Hog Chains Broke—A Desperate Battle for Life Preservers.

The steamer Lula Warren left the wharf yesterday with 150 or 200 colored excursionists, bound for Cairo. Those who went never again want to repeat their experience. The machinery of the boat is in both ends, leaving her open in the middle. When she reached Brooklyn, she was caught by the wind, and swung around against a barge until her boards were broken off the hull. There was considerable excitement then, but the boat proceeded on down until at Grand Chain, several miles up the river, when one of her two "hog" chains broke. The boat at once sagged at both ends, and there was a scramble for life preservers. About this time the other "hog" chain broke, and this rendered matters much worse. Some of the women had on the life preservers under their skirts, while others crawled into them feet foremost. There was a regular panic, and all that saved the boat from sinking was the fact that she was run into the Illinois shore. The Dick Fowler came along about this time and rendered all the assistance possible, and after temporary repairs the boat was brought back.

SHOT A HOG.

Then the Neighbors Fell Out and "Fli."

Dick Pervis, a well known farmer of the Clark's river section, was tried before Justice Shennell this morning on a charge of shooting a hog belonging to Eliza Jones, a neighbor. He shot the hog because he caught it on his land, and then he and Jones mixed. They fought until separated. Pervis was fined \$10 and costs for shooting a hog, and \$1 and costs for fighting. The other man was fined one cent and costs for his part in the difficulty.

Princeton, Ky., June 27.—Dr. G. D. Wright and W. O. Munday and wife, all of Springfield, Tenn., figured in a little sensation here yesterday. Dr. Wright eloped from Springfield with Mrs. Munday and the couple were traced to this place by the angry husband, who learned that they were stopping at the Scott house near the I. C. depot. Munday armed himself with a pistol, went to the room occupied by the guilty couple and attempted to shoot his wife. Wright interfered and after a hard struggle succeeded in getting the pistol away from the infuriated husband. The whole party was arrested and placed under guard until this morning, when they threw themselves upon the mercy of the court. The affair was amicably adjusted and Mr. and Mrs. Munday returned to Springfield to enjoy a renewal of conjugal bliss.

SATURDAY, JUNE 25, 1898.

EX-PRESIDENT CLEVELAND knows full well that the question of "territorial aggression" will be settled one way or another before the issues of the next campaign are made up. If he made his Lawrenceville address, in which he pointed out the dangers, as he sees them, involved in the policy towards which events are rapidly carrying this nation, with the idea of putting himself again in the front as a teacher, he did so knowing that he will not be called upon to go before the people upon a platform opposing territorial expansion. That question will be settled as a war measure and permanently in the next few months. The occasion, however, has given Mr. Cleveland the opportunity to emerge from his retirement and again to pose as a leader. His appearance will do much to shatter the charm that has attached to the name of Mr. Bryan for the last two years. It will demonstrate to the Democrats who voted for Bryan in 1896 that there are other leaders equal to him, of which Mr. Cleveland is by no means the least. This is all that Cleveland expects to accomplish by his recent utterance, and that he has already done.

THE AMERICAN SOLDIER.

An instructive incident occurred at the landing of the American army at Balquidri. That point is the terminus of a short railroad. The landing of the American troops took the Spaniards by surprise and they retreated very suddenly. Before their flight they attempted, so the story goes, to disable a locomotive standing with steam on the track by disconnecting the coupling rods, the throttle, lever and several essential parts, burying some and throwing others into the sea. Two engineers happened to be with the advance squadron of the Twenty-second infantry and the troops went for the locomotive with a yell. The soldiers, hunting about for the missing parts, found some and improvised others. One engineer acting as fireman and the other at the throttle, in twenty minutes they ran her into Juragua, five miles distant, with the tender full of sharpshooters, delirious with enthusiasm over Yankee ingenuity, at which point the soldiers captured a large amount of provisions. This story well illustrates the great effectiveness of the American soldier as a fighting quantity. He is

equal to every emergency. If a train crew is wanted it is found among the volunteer army. If a bridge is to be repaired, the mechanics are found. Whatever is necessary to be done can be accomplished by the American soldier. Hence an American army is a storehouse of latent energy, exhausted in its resources and irresistible in its power. While willing to be a part of a vast machine or organization and glad to be such when an army is to be crushed or a city taken, the American soldier never forgets his individuality or that his every mental faculty as well as his physical being belongs to his country. Thus the unobtrusive soldier becomes the hero of some act of bravery and daring, or rises rapidly along the lines of regular promotion. But whether in the ranks or bearing a commission, the American soldier is at all times an element of unlimited possibilities, on the field of battle or in the council of war.

DEMOCRACY'S TRIALS.

Events are moving so rapidly that the free silver Democrats are getting bewildered. They had flattered themselves that Grover Cleveland was politically dead; that under the leadership of William Jennings Bryan, they had forever retired their former leader, who had become to represent to their minds all that was hideous of party treason, corporations and the single gold standard. They also rejoiced to know their idol, W. J. Bryan, had by his Omaha Exposition speech, placed himself again in the front by formulating an issue around which the shattered hopes of Democracy might rally.

It is the unexpected that happens, and such was the case when ex-President Cleveland made his recent address in which he placed himself alongside of Mr. Bryan on the platform of opposition to territorial expansion. With Grover Cleveland and William J. Bryan on the same platform and both seeking the leadership of their party, there can be but one result—William J. Bryan must stand aside.

Such is the horrible picture now haunting the imagination of the free silver Democrat. Is silver to be laid aside in 1900? Is W. J. Bryan to be shelved with the 16 to 1 theories? Is Grover Cleveland, the hated leader of the single gold standard adherents, to become again the standard bearer of Democracy? These are some of the questions that are now pertinent, and they give some idea of the troubles of those Democrats who are opposing territorial expansion; who want to see the flag hauled down that now floats in triumph before Santiago's walls and in the harbor of Manila.

THE WORDS OF A PATRIOT.

In his speech upon the Hawaiian annexation bill, in the United States senate, Saturday, Senator Teller, of Colorado, launched upon the broad question of territorial expansion in the following patriotic and prophetic words:
"Where American soldiers are buried, there the American flag will float, and to remain, and we will take the responsibility of settling the questions involved."
"Whatever may be done—whatever policy may be adopted—I do not believe that our action will in any manner endanger the solidity and perpetuity of American institutions. We may take Cuba, Porto Rico and the Philippines, but we shall be able to take care of them in a way satisfactory to their people and satisfactory to our own people."

SUNDAY OUTINGS.

Several Excursions Yesterday. Other Diversions.

The handsome steamer Dick Fowler carried a small crowd to Smithland, Owen's Cove and Golconda yesterday morning from Metropolis and Paducah. Those who went report a most enjoyable trip, nothing occurring to mar the pleasure of the voyage except a heavy rain storm that struck the boat about Brooklyn on her way back, after nearly all the people had landed.

The Chattanooga brought up an excursion from Cairo yesterday afternoon, and the visitors spent several pleasant hours here.

The celebration of memorial exercises at Labelle park by the Odd Fellows yesterday afternoon was largely attended, and the services were most impressive. Those who are in memoriam in the two lodges are:

Owing to the threatening weather there was a small crowd at the performance at Labelle park last night. The manager has some good people for the week, including those who have been here for the past several weeks.

Many people went to the country yesterday to spend the day, while a great many went over to that ever popular resort, the lake to spend the day fishing. The rain very considerably waited until after dark for its regular Sunday visit.

NO FUSION.

Some Sound Advice By A Straight Out Republican.

Fulton, Ky., June 25, 1898.

Editor Sun:
I thank you for kindly mentioning me, in a recent issue of your paper, as a suitable person to be made a nominee for congress by the republicans of this district. I am not insensible to the compliment implied in that notice, to be sure, but you are to be commended; and I commend you, for your good political judgment expressed in the article referred to, wherein you demand that a nomination by our party be made, more than for the suggestion that I might be an acceptable nominee. I have understood, from indefinite rumors, that we would not make any nomination, but would be content to "fuse" with the populists, and with one Ben Keys, with the intention and in the hope that we might effectuate the landing of the said Keys in congress. I am truly glad to be informed that such course has not been determined upon, and will not likely be taken. I sincerely trust for better things. I believe I understand the essential portions of the history of the republican party. I believe I understand what its principles and purpose are, and I believe I am in full accord with my party upon all vital principles. Believing thus, I ask, what does Mr. Keys or the populists believe that we believe? Nothing. We are entirely out of harmony. We do not accord at all. The republican party is the progressive institution in this country today. This country is the progressive country of the world. Therefore, in a remote

corner, yet in a sense perfectly true, the republican party is the progressive institution of the world. More than that, it is the conservative force of this country. It opposes every fanaticism, and every fanatic is its foe. It is the hope of the country against anarchy, socialism, and every form of faith or doctrine, which is inconsistent with our free institutions, and the tried principles of liberty which is the result of so many struggles by lovers of freedom. It purposed and wrought out the freedom of a race. It purposes that those who have labored and saved a competence or a fortune, even though it be inconceivable in extent, shall not be robbed by a Debs, a Bryan, or any other creature. It believes and teaches that the rich do not hate the poor, and that the poor need not and should not despise the rich. It is now doing its part, and I believe the greater part, toward bestowing the blessings of freedom upon the oppressed people of Cuba, Porto Rico and the Philippines, and if it appears necessary that this country should own and control these islands, in order that "their feet may be taken out of the mire clay, and that their going may be established," we will own and control them and succor them, and that will be done by republican votes. No party with such splendid history and purpose, can afford to "fuse" with populists. Give us a clean candidate this and every other year, and after awhile, sooner or later, our efforts will be crowned with victory. The democrats cannot fool all the people all the time.

Truly,
Ed. Thomas.

THE SCHOOLS.

Institutes are to be held next month.

The examination of teachers for certificates in the colored school was finished Saturday afternoon. Only one first-class certificate was issued, this being to Prof. G. W. Turner. The pupils who recently graduated from the colored schools received second-class certificates. There was one out of thirteen failed to pass. The white teacher's institute will be held next month, the last week, at the high school building, and will be conducted by Supt. Geo. O. McBroom. The colored institute will be held the last week in August, and Prof. Benton will conduct.

FATAL INJURY.

John Hodges May Die From a Fall.

John Hodges, a well known young farmer of the Florence Station neighborhood, was badly if not fatally hurt in a runaway near his home. He was driving when his horse took fright, and he was thrown violently out, striking his head. When picked up the blood was flowing from his ears, and the supposition was at last accounts that he was fatally injured. Young Hodges is 23 years old, and a popular young man in that section.

A WATERY GRAVE.

John Bradshaw Drowned in a Pond While Bathing Yesterday—The Body Soon Recovered.

He Had Just Gone Into the Water and Asked For Help—Was 22 Years Old—Boys With Him.

John Bradshaw, colored, aged about 22, was drowned in the pond or slough in Guthrie's park about 8 o'clock yesterday afternoon, in sight of two small boys, who were with him.

He lives near the Hammer place, and had gone over to go in bathing. There were two small boys with him. The evidence of one was that as soon as Bradshaw waded into the pond and got to his chin, he suddenly threw up his hands and cried for them to throw him something. One of the boys became frightened and ran, and the other was so badly frightened that he could do nothing. Bradshaw is supposed to have been seized by cramps. The body was recovered about an hour afterward, and an inquest was held by Coroner Phelps, resulting in a verdict of accidental drowning.

Bradshaw's remains were taken in charge by Undertaker Nance, and the funeral will take place tomorrow.

One of the boys who witnessed the drowning could not be induced to testify before the coroner's jury. Bradshaw was unmarried.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using the water injection. (These injections for seven years placed me in this terrible condition during that time I did everything I could but never found any relief, such as was in case until I began using CASCARET. I was free from constipation in five days, and it was such a relief." 155 Russell St., Detroit, Mich.

THE NEW WAY.

WOMEN used to think "female diseases" could only be treated after "local examinations" by physicians. Dread of such treatment kept thousands of modest women silent about their suffering. The introduction of Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure

Wine of Cardui

taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not hesitate now. Wine of Cardui requires no humiliating examinations for its adoption. It cures any disease that comes under the head of "female troubles," disordered menses, falling of the womb, "whites," change of life. It makes women beautiful by making them well. It keeps them young by keeping them healthy. \$1.00 at the drug store.

For advice in cases requiring special directions, address, giving symptoms, to the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

W. I. ADDISON, M.D., Cary, Miss., says: "I use Wine of Cardui extensively in my practice and find it most excellent medicine for female troubles."

Illinois Central R. R. Announcements.

The Illinois Central now has on sale, and is selling, the same until September 30th, low round trip tickets to the South to a large list of points on its lines. This is a rare opportunity for tourists to visit the South, and the Illinois Central is anxious to make it as easy as possible for them to do so. The tickets are valid for 30 days, and can be used at any time during that period. The rates are very low, and the service is excellent. The Illinois Central is a first-class line, and its trains are comfortable and well equipped. The tickets are on sale at all ticket agents, and at the Illinois Central offices in Chicago, St. Louis, and other points.

Argument

Is not necessary to convince a thinking person that money is thrown away when invested in a typewriter that has not passed its experimental period.

Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine.

Is it wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability.

Do not pay for the costly experiments of others. The Smith Premier passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

Isn't It the Truth?

She asked me to look at her watch and said "The old thing wouldn't go." After examining it I found, pasted against the inner side of the case—
1. A portrait of her first love, and a lock of his hair.
2. Some dead forget-me-nots.
3. A newspaper clipping announcing her recent engagement.
4. A four-leaf clover.
Between the inner cover and the works were two pictures and a recipe for cold cream.
And still the obstinate thing refused to go.

A NOVEL VERDICT.

The Jury Wanted the Thing Settled Right.

There was a unique verdict rendered in a case in Justice Bryant's court at Grahamville Saturday afternoon.

The case was W. Easley against Monroe Baldry for a suit of \$78. Part of the amount was claimed on corn due the plaintiff as a share of the crop.

The jury heard the evidence and after being out a short time, brought in the following verdict:
"We, the jury, find for the plaintiff, seven barrels of corn."

POLICE COURT.

There Were Several Cases Today. Railroad Claims Attention.

Judge Sanders made a few remarks about the Illinois Central this morning.
There was a case in court in which a railroad man was a witness. The railroad man appeared about 9 o'clock and said he had only a few minutes in which to testify. That he was told to be back by a certain time on they wouldn't want him again. He was a witness for the defense, and contrary to custom, he had to be heard before any of the prosecution's witnesses. It was then that Judge Sanders expressed himself in no uncertain terms of a corporation that takes such steps towards defeating the ends of justice as to threaten to discharge its employees when they are compelled to testify in a court. It is like some inferior official was responsible for the man's dilemma, as it is well known the company will not endorse any such regulation. General Agent Donovan knew nothing about it, it is safe to presume.
Walter Jameson, colored, was charged with having stolen some money from a companion named Briley. The evidence was heard and the case left open.
Amy and Will Jones, colored, were charged with a breach of the peace, dismissed.
Albert Johnson was fined \$75 and sentenced to 20 days in jail for doing a mischief on the Chattanooga Sunday before last. He is one of the men who drew their pistols just as the boat pulled out of Paducah.
Ed Skelton, for riding with a disreputable woman, was fined \$5 and costs.
Scott Sink, for a breach of the peace, was fined \$1.
Louis Banks, colored, was charged with stealing a coat, vest and some other things from Will Morton. He was held to answer.

NEWS OF THE RIVERS.

The Rus Pritchard will come off the ways this week.
The Dick and Joe Fowler were out for Evansville and Cairo on time this morning.
The Butterff arrived from Nashville, early this morning and left for Clarksville at noon, doing a good freight business and some passengers.
The towboat Harry Brown passed up this morning from New Orleans for Cincinnati. She had a tow of empties.
The Dick Fowler had a nice crowd to the cave and Glendon yesterday.
The river is rising here, coming up the gage about five-tenths last night.
The city of Sheffield leaves St. Louis this afternoon for Tennessee river.
The State of Kansas is due up from New Orleans for Cincinnati.
The gauge read 2.4 this morning and rising.
The Chattanooga brought an excursion up from Cairo yesterday.
The Lula Warren started from here with an excursion for Cairo yesterday and was caught in a storm at the cabin and had to return here last night without reaching her destination. She stripped a portion of her guards off besides breaking a hog chain.

COUNCIL MEETING.

Called Session of the Council for Tonight.

The council will meet tonight in called session, to take up and adjust the matter of bank assessments. It is said that the finance committee, to which the matter was referred, will report recommending a reduction of the assessment.

The banks were assessed on a basis of that they claim was unjust, inasmuch as the assessor assessed them from their regular statement, instead of as other property owners are assessed. The bankers recently submitted a statement to the council, and it was referred, with the result that the assessment of banks will likely be reduced.

FUNERAL YESTERDAY.

The funeral of the late Mrs. Martha J. Robertson took place yesterday afternoon. Burial at Oak Grove.

WORK SUSPENDED.

On account of the weather and the failure of some of the men to show up, work on the main sewer was practically suspended this forenoon. There is a large quantity of water in the big ditch at present.

FOR THE GLORIOUS FOURTH.

The glorious Fourth will be celebrated this year in a manner befitting the nation's honor. There will be a monster celebration at the fair grounds, as heretofore announced, and in addition to public speaking, there will be everything else to entertain and amuse. The music will be the best procurable, and the big shoot of the Paducah Gun club is to be no insignificant feature. There will be all kinds of races, and there will be something for everybody.

RAILROADERS' PICNIC.

It Will Come Off Tomorrow Down the Illinois Central.

The annual picnic to railroad men and their families will take place tomorrow at Lake View, Miss., about twenty miles below Memphis. It promises to be one of the best and largest ever given, and Paducah will send her delegation, as usual. Those who go from here will leave tonight on the "cannon ball" and will return tomorrow.

SUNDAY AT THE SPRING.

Judge Sanders and Marshal Collins went up to Smithland yesterday and made a visit to the celebrated Echo Valley springs, only recently discovered. They are only a few miles from Smithland, and have attracted a great deal of attention. There were several hundred people there yesterday. Mr. and Mrs. Sam Skinner were among those went up from Paducah.

DIED OF WHOOPING COUGH.

The three weeks old child of Mr. Claude Overstreet, of the Massac neighborhood, died Saturday and the remains were buried yesterday.
